DRIVING TIP OF THE QUARTER

Snow & Ice

Snow limits visibility, so turning on your headlights is necessary to see and to be seen. Often, snow will completely cover lane markings. Drivers may tend to move away from the edge of the road, thus passing closer to each other. Snow or ice between your tires and road greatly reduces your traction and increases the distance you need to stop by at least 6 second.

On slippery surfaces, you have the most traction and control when the front tires are rolling; therefore, your vehicle will respond better to steering than to braking.

Here are some other suggestions for safe winter driving:

- * Before you start driving, clear snow or ice from all windows and lights so you can see and be seen.
- * Drive gently; do not change speed or direction suddenly.
- * Watch for ice on bridges and in shady areas (bridge surfaces freeze before other road surfaces).

SALVAGE TITLE

The purpose of branding a title as a "Salvage Title" is generally for insurance purposes after an accident or unrecovered theft. Once a vehicle is branded Salvage it can no longer be legally driven and you are required to surrender your plates. If you want to continue driving it, you will need to have a Level III inspection and re-brand your title as Restored/ Salvaged. You can stop by and pick up a 3 Day Permit after the vehicle is Salvaged in order to drive the vehicle to the inspection site.

Vehicle of the Month - 1965 Chevrolet Corvette

Owner: Steve Kosch

I've just learned of what services FooteWork provides and am very pleased with their efficient and excellent customer service. They had my title work completed very quickly and accurately.

My 1965 Corvette sports a 327ci 300 hp, V-8. It had a full body on restoration, numbers matching, power glide transmission, power steering, four wheel disc brake power brakes.

Getting too cold to ride?

Now that the weather is changing, most of us put away our motorcycle or ATV for the cold months. One of the most common things we see at FooteWork is someone with an insurance issue on a motorcycle or ATV after they drop the insurance for the months they decide not to ride.

It's OK to cancel the insurance at any time on a vehicle, but in order to prevent a "lapse of insurance" issue on the vehicle, you must fill out a "De-Insure form" with the state. If this is something that you are considering with any of your vehicles, stop by either office and we can take care of this for you.

This is a service that we're happy to provide so you can get back on your toy next spring with no hassles.

HELPFUL TIP—Complimentary Services
